STAGE 3 PERFORMANCE TEST NOTES

This modern, rectangular stallion has developed very well and grown since his Stage 1 Inspection seven months ago. He moves and jumps with increased elasticity, improved and consistent jumping technique, and greatly increased balance. His canter is light-footed and very supple. He is a careful jumper with good scope, reflexes, and technique. His rideability is very good, and he works very willingly for and with the rider. His balance, rideability, and interior qualities are extraordinary. His trainability and complete set of athletic traits promise a very good sport career. As a breeding stallion, he should suit a wide variety of mares ranging from heavier mares lacking modern type, elasticity, and athleticism to modern mares requiring increased rideability and willingness to cooperate with the rider. He should be used by both showjumping and eventing breeders. The mare should bring good forelegs to the pairing. An interesting fact is the stallion's second dam is a full-sister to the important showjumping sire Concorde.

Stable Behavior: Good stable behavior. No stable vices observed.

Behavior with Humans: Good behavior toward humans.

Predicates: D-OC, D-WFFS1, E+

*Interior: character/temperament + willingness to work, equally weighted

⁺Excellent, Good, or Acceptable

Inspectors: Marcel Beukers, Thomas Reed, Wim Versteeg, Claire Wood

Decision: APPROVED
