STAGE 2

DNA-OC BV: 103 WFFS1: N/N CLINICAL*: EXCELLENT RADIOGRAPHS*: EXCELLENT AIRWAY*: EXCELLENT CEM/EVA/EIA: NEGATIVE

STAGE 3 PERFORMANCE TEST NOTES

This nice type of stallion was seen six months and eighteen months ago in Stage 1 Inspections. He has developed significantly and grown since then through maturation and skilled and sympathetic training. His rideability has greatly increased, and he is now a very rideable stallion with an excellent mind and willingness to work for and with the rider. He jumps carefully and with a good attitude. He has good balance when cantering and jumping, and his jumping technique, scope, and reflexes have improved and are more than sufficient for approval and the promise of a good sport career. He should be used by both showjumping and eventing breeders. His balance, rideability, and interior qualities make him a good stallion for mares that do not work willingly and whose rideability can be sub-optimal. The mare should bring to the pairing good feet, a good length of stride in the canter, long lines, and some scope.

Stable Behavior: Good stable behavior. No stable vices observed.

Behavior with Humans: Good behavior toward humans.

Predicates: D-OC, D-WFFS1, E+

*Interior: character/temperament + willingness to work, equally weighted

*Excellent, Good, or Acceptable

Inspectors: Marcel Beukers, Thomas Reed, Wim Versteeg, Claire Wood

Decision: APPROVED

Date: 17 OCTOBER 2024
