STAGE 3 PERFORMANCE TEST NOTES

Stage 3 Performance Test Observations: This is a complete stallion. He is a modern sport type with a lot of blood in his body and athletic expression. His conformation is more than acceptable across every trait. He is very athletic, with a good canter and jumping traits. Since his Stage 1 Inspection seven months ago, he has grown and his already good canter, elasticity, balance, reflexes, technique, and scope have improved. He is careful, highly rideable, and likes to jump and work for and with his rider. He should be used by both showjumping and eventing breeders. He is expected to contribute blood and willingness to work to his progeny; modern jumping traits such as quick reflexes, speed, and scope; and rideability. He should suit both heavier mares lacking athleticism, and modern blood mares needing better rideability in their progeny. In both cases, the mare should bring some size to the pairing.

Stable Behavior: Good stable behavior. No stable vices observed.

Behavior with Humans: No atypical stallion behavior toward humans.

Predicates: D-OC, D-WFFS1, E+. Approved by SF and ZANG.

*Interior: character/temperament + willingness to work, equally weighted

*Excellent, Good, or Acceptable

Inspectors: Marcel Beukers, Thomas Reed, Wim Versteeg, Claire Wood
