STAGE 3 PERFORMANCE TEST NOTES

This is a long-lined stallion with good size. Since his Stage 1 Inspection six months ago, his already good scores for reflexes and scope have improved. His canter has more than sufficient length of stride, impulsion, and balance. His jumping technique in front and behind is more than sufficient, but his foreleg technique could be better at times. He is likely to improve as he jumps higher and wider fences, as his scope now permits him to jump age-appropriate fences and courses effortlessly. He is careful when jumping, and he likes to work for and with the rider. His overall athleticism makes him a very good candidate for a promising sport career. As a sire, he should be used by both showjumping and eventing breeders. His interior qualities should produce highly rideable and trainable progeny with scope and power in their jumping. He should suit both heavier mares and modern mares, including mares that need size and power. The mare should bring good feet and hindlegs to the pairing, along with good jumping technique and a strong back and loins.

Stable Behavior: Good stable behavior. No stable vices observed.

Behavior with Humans: Good behavior toward humans.

Predicates: D-OC, D-WFFS1, E+

*Interior: character/temperament + willingness to work, equally weighted

*Excellent, Good, or Acceptable

Inspectors: Marcel Beukers, Thomas Reed, Wim Versteeg, Claire Wood
