Behavior: Normal

Additional observations by the inspectors: Nice type. Rectangular. Well-muscled neck, a little ewe-necked. Good back and loins. Croup a bit short. Foreleg a bit fine. Hindleg sickled. Forefeet wide with low heels. Walk is active. Trot in hand had good length and was powerful and well-balanced. Canter is well-balanced and powerful. Jumps a bit upwards. Needs to jump with more bascule and body use. Seems to have a lot of scope. He is very careful. Rideability needs more attention.

Total Points: 110

Decision: Approved
