DNA-OC BV: 99 WFFS1: N/N CLINICAL⁺: KWPN RADIOGRAPHS⁺: KWPN AIRWAY⁺: KWPN CEM/EVA/EIA: NEGATIVE

A very nice type and modern stallion. Very nice front. A bit weak in his pasterns. His feet are a little different. His hindleg is a bit straight. Rich and Royal was approved by the KWPN after fulfillment of all veterinary clinical and radiographic requirements and successful completion of the 21-Day Performance Test. The KWPN veterinary examinations fulfil WSI's Stage 2 requirements (except lab tests), and the Performance Test fulfils WSI's Stage 3 Performance Test requirements. Therefore, Stage 2 clinical and radiographic exams and Stage 3 are waived by the Stallion Inspection Committee. The stallion is a non-carrier of the WFFS1 mutation, and WSI awards him the D-WFFS1 predicate. The stallion's score of 99 in the genomic OC test is accepted as a passing score by WSI. This stallion has a lot of potential for sport and breeding.

Behavior with Humans: Good behavior toward humans.

Predicates: D-WFFS1, E+

*Interior: character/temperament + willingness to work, equally weighted

*Results of KWPN exams accepted by WSI.

Inspectors: Thomas Reed, Wim Versteeg, Claire Wood

Decision: APPROVED
