STAGE 3 PERFORMANCE TEST NOTES

This modern, rectangular stallion has maintained many of the same impressions he made during his Stage 1 Inspection seven months ago. He has a functional conformation that sustains a good canter that is ground-covering, balanced, and expresses impulsion. He jumps well with good technique, and his rideability is superior. He has a good mind, cooperates, and works with and for the rider quite well. His jumps easily, and his scope should become more evident as the fences increase in height and width. He has clear promise to have a very good sport career. He should be used by both showjumping and eventing breeders, as his rideability, trainability, overall athleticism, and ground-covering canter will prove valuable. He should suit both heavier and modern mares. The mare should bring power to the pairing, and especially for eventing breeders, a good walk and trot.

Stable Behavior: Good stable behavior. No stable vices observed.

Behavior with Humans: Good behavior toward humans.

Predicates: D-OC, D-WFFS1, E+

*Interior: character/temperament + willingness to work, equally weighted

*Excellent, Good, or Acceptable
