(k) Talent as a Jumping Horse:	8.0

STAGE 2

DNA-OC BV: 97

WFFS1: Carrier

CLINICAL*: GOOD

RADIOGRAPHS*: EXCELLENT

AIRWAY*: GOOD

CEM/EVA/EIA*: NEGATIVE

STAGE 3 PERFORMANCE TEST NOTES

This is a big, strong stallion with long lines. He has developed since his Stage 1 Inspection seven months ago. His canter, scope, and balance have improved. His canter has balance and he is light-footed, but his stride could be a little longer. He has quick reflexes and much scope, which often means he does not have to exhibit optimal foreleg technique. His foreleg technique improved on the third day of the Performance Test when he was positioned by the rider to take off a bit closer to the fence. Inspectors believe that his foreleg technique will improve as he develops and matures, and when asked to jump higher and wider fences. He is a careful jumper, and he uses his considerable power and good hindleg technique to clear fences effortlessly. His rideability is more than sufficient, and he works well for and with the rider. He should be used by showjumping and eventing breeders. He should suit modern showjumping mares; for eventing breeding, he may be best matched with Thoroughbred mares. In both cases, the mare should bring good leg conformation and feet, and good foreleg technique.

Stable Behavior: Good stable behavior. No stable vices observed.

Behavior with Humans: Good behavior toward humans.

Predicates: D-OC, E+

*Interior: character/temperament + willingness to work, equally weighted

*Excellent, Good, or Acceptable

Inspectors: Marcel Beukers, Thomas Reed, Wim Versteeg, Claire Wood

Decision: APPROVED
